

# A Certificate Course On Child Development and Family Studies

This programme is designed to meet the increasing needs of parents, teachers and operators of kindergartens and childcare centres; and those who are serious in bringing up their children in a proper and desirable way. For both individuals and early childhood educators, success in today's early childhood environment depends on their continued attainment of knowledge and new skills in bringing up children. To this end, Institut Mayang provides its students with the knowledge and skills, the means to remain ahead in the area of early childhood education.

Mayang's course on Child Development and Family Studies, offered in collaboration with Pam Arnold Courses, Australia, provides students with a comprehensive understanding of children's development, pre-school education and other aspects of children's development. Pam Arnold, internationally acclaimed and committed in the early childhood education industry is here to provide students of Mayang with cutting edge skills.

Upon completion of this course, students will be awarded the Institut Mayang Certificate of Participation and also the Pam Arnold Courses Certificate.

## Course Benefits:

- Provides competency and confidence in managing and working with children
- Students acquire knowledge pertaining to early childhood from the scientific perspective
- Students gain insight into parenting know-how
